<b>Foreword</b> . . . . .	<b>xiii</b>
<b>Chapter 1 Welcome to Eclipse!</b> . . . . .	<b>1</b>
How it works . . . . .	3
Step 1.1—Brushing your teeth . . . . .	4
What I'll cover . . . . .	5
Eclipse . . . . .	5
The Java Development Tools (or JDT) . . . . .	6
The Software Widget Toolkit (or SWT) . . . . .	6
JDBC and HSQldb . . . . .	7
<b>Chapter 2 Installing Eclipse</b> . . . . .	<b>9</b>
Step 2.1—Extract Eclipse . . . . .	11
Step 2.2—Run Eclipse . . . . .	19
<b>Chapter 3 Introducing the workbench.</b> . . . . .	<b>35</b>
Introduction . . . . .	36
Step 3.1—Getting to the welcome display . . . . .	39
Step 3.2—Eclipse's own tutorial . . . . .	46
Review . . . . .	37
The bars . . . . .	37
The panels . . . . .	37
<b>Chapter 4 The Resource perspective.</b> . . . . .	<b>35</b>
Step 4.1—Close the Welcome window . . . . .	38
Step 4.2—Create a project . . . . .	39
Step 4.3—Create a Resource . . . . .	48
Step 4.4—Create a folder, move your file into the folder . . . . .	53
Step 4.5—Side-by-side editing . . . . .	58
Overview . . . . .	67

**x Contents**

<b>Chapter 5</b>	<b>The Java perspective . . . . .</b>	<b>65</b>
	Overview . . . . .	67
	Step 5.1—Clean up your workbench . . . . .	68
	Step 5.2—Create a New Project . . . . .	70
	Step 5.3—Look under the hood with the Resource perspective . . . . .	77
	Step 5.4—Explore the Java perspective . . . . .	90
<b>Chapter 6</b>	<b>The Debug perspective . . . . .</b>	<b>99</b>
	Step 6.1—Open the Debug perspective . . . . .	100
<b>Chapter 7</b>	<b>A simple program . . . . .</b>	<b>107</b>
	Step 7.1—Get into the Java perspective . . . . .	109
	Step 7.2—Create the Java project . . . . .	112
	Step 7.3—Creating a new class. . . . .	115
	Step 7.4—Write the code for the new class . . . . .	119
	Option 1—Source Entry . . . . .	119
	Option 2—Importing Source from CD . . . . .	121
	Step 7.5—Reviewing the source and the generated class . . . . .	127
<b>Chapter 8</b>	<b>Running and debugging. . . . .</b>	<b>129</b>
	Step 8.1—Running your HelloWorld program. . . . .	131
	Step 8.2—Create HelloWorld2. . . . .	135
	Option 1—Source Entry . . . . .	135
	Option 2—Importing source from CD . . . . .	140
	Step 8.3—Run HelloWorld2 . . . . .	146
	Step 8.4—Breakpointing a program . . . . .	150
	Step 8.5—Modifying a Variable and Continuing . . . . .	154
	Overview—The thick client interface . . . . .	165
<b>Chapter 9</b>	<b>The user interface . . . . .</b>	<b>161</b>
	Step 9.1—Workbench cleanup . . . . .	166
	Step 9.2—Create a new project. . . . .	170
	Step 9.3—Add a new class, HelloSWT . . . . .	175
	Step 9.4—Write the Code for the HelloSWT Class . . . . .	178
	Option 1—Source Entry . . . . .	178
	Option 2—Importing Source from CD . . . . .	182
	Step 9.5—Fixing import errors . . . . .	190
	Step 9.6—Running the HelloSWT class . . . . .	203
	Code review: HelloSWT . . . . .	214
	Step 9.7—Add a new class, Prompt . . . . .	216
	Step 9.8—Modify the new Prompt class . . . . .	219
	Option 1—Source Entry . . . . .	219
	Option 2—Importing Source from CD . . . . .	224

Step 9.9—Running the Prompt class . . . . .	232
Code review: Prompt . . . . .	241
Overview . . . . .	251
<b>Chapter 10 Adding the database. . . . .</b>	<b>249</b>
Step 10.1—Installing HSQLDB . . . . .	253
Step 10.2—Add a new class, HelloHSQL . . . . .	259
Step 10.3—Write the code for the HelloHSQL class. . . . .	262
Step 10.4—Import the HelloHSQL application . . . . .	268
Step 10.5—Modifying the JDBC constants (EXPERT ONLY!). . . . .	276
Step 10.6—Running the HelloHSQL class. . . . .	278
Code review: HelloHSQL . . . . .	288
Step 10.7—Import the Inquire application . . . . .	293
Step 10.8—Modifying the JDBC constants (EXPERT ONLY!). . . . .	301
Step 10.9—Running the Inquire class . . . . .	302
Code review: Inquire . . . . .	305
<b>SideStep 1 Install a Java runtime. . . . .</b>	<b>311</b>
<b>SideStep 2 Install WinZip . . . . .</b>	<b>323</b>
<b>SideStep 3 Download Eclipse . . . . .</b>	<b>335</b>
<b>SideStep 4 On things GUI. . . . .</b>	<b>347</b>
<b>SideStep 5 Start your SQL engines . . . . .</b>	<b>353</b>
<b>Index . . . . .</b>	<b>355</b>
