

# Contents

## *Introduction:*

<b>Why Another Book on HTML?</b> . . . . .	<b>1</b>
How Is This Book Arranged? . . . . .	2
Intended Audience . . . . .	3
Do I Need to Start from Scratch? . . . . .	4
Choosing Development Tools . . . . .	5
A Word about Apostrophes. . . . .	5
Summary . . . . .	6

## *Chapter 1: An Introduction to Browser-Based Applications* . . . . . **7**

What Additional Languages? . . . . .	8
What Is a Client? . . . . .	9
What Is a Browser?. . . . .	10
What Is HTML? . . . . .	10
What Is a Web Server? . . . . .	11
What Database(s) Are Used?. . . . .	11
Where Can I Find Sample Code? . . . . .	11
The Development Process . . . . .	12
Fear of Web Technology . . . . .	20
Summary . . . . .	24

## *Chapter 2: An Introduction to HTML* . . . . . **25**

Why Learn HTML? . . . . .	25
What Is HTML All About? . . . . .	26
Summary . . . . .	54

## *Chapter 3: Embedding Images in Web Pages* . . . . . **55**

Types of Image Files . . . . .	56
Incorporating Images into Web Pages . . . . .	57
What Can We Do with Video Files? . . . . .	64
Using Images with Links. . . . .	68
Image Maps . . . . .	70

	Tools for Working with Images . . . . .	75
	The Do's and Don'ts of Working with Image Files . . . . .	76
	What about Our Example Page? . . . . .	77
	Summary . . . . .	79
<b>Chapter 4:</b>	<b>Adding Links and Anchors . . . . .</b>	<b>81</b>
	How to Place a Link on a Page . . . . .	81
	Other Kinds of Links. . . . .	88
	What about Our Example Page? . . . . .	93
	Summary . . . . .	98
<b>Chapter 5:</b>	<b>Using Cascading Style Sheets . . . . .</b>	<b>99</b>
	Creating a Cascading Style Sheet . . . . .	99
	What You Can Do with a Cascading Style Sheet . . . . .	129
	Summary . . . . .	132
<b>Chapter 6:</b>	<b>Arranging Content . . . . .</b>	<b>133</b>
	The Purpose of Arranging Content. . . . .	134
	Tables. . . . .	136
	Frames . . . . .	153
	The <code>&lt;div&gt;</code> and <code>&lt;span&gt;</code> Tags . . . . .	158
	Summary . . . . .	161
<b>Chapter 7:</b>	<b>Web Application Overview . . . . .</b>	<b>163</b>
	Components of a Web Application System . . . . .	164
	Reusing Legacy Code . . . . .	183
	Security. . . . .	189
	Web Hosting . . . . .	197
	Summary . . . . .	199
<b>Chapter 8:</b>	<b>Incorporating JavaScript. . . . .</b>	<b>201</b>
	Introduction to JavaScript . . . . .	201
	JavaScript Compared to Other Tools. . . . .	202
	JavaScript's Advantages and Disadvantages . . . . .	204
	What Can JavaScript Do? . . . . .	205
	Syntax . . . . .	206
	How to Put JavaScript into an HTML Page . . . . .	208
	Data Types . . . . .	212
	Statements . . . . .	220
	Catching Errors. . . . .	241
	Objects . . . . .	245

---

	JavaScript Arrays . . . . .	255
	Events . . . . .	258
	Cookies . . . . .	264
	JavaScript Form Validation . . . . .	266
	Summary . . . . .	277
<b>Chapter 9:</b>	<b>Web Development with CGI . . . . .</b>	<b>279</b>
	CGI's Uses . . . . .	280
	CGI Compared to Other Tools . . . . .	281
	CGI's Advantages and Disadvantages . . . . .	283
	CGI's Compatibility . . . . .	283
	CGI Specifications . . . . .	285
	Security . . . . .	287
	Forms . . . . .	289
	Putting It All Together . . . . .	305
	Summary . . . . .	307
<b>Chapter 10:</b>	<b>Web Development with PHP . . . . .</b>	<b>309</b>
	PHP Compared to Other Tools . . . . .	310
	PHP's Advantages and Disadvantages . . . . .	312
	Introduction to PHP . . . . .	314
	Basic PHP Syntax . . . . .	316
	Conditional Statements . . . . .	323
	Loops . . . . .	328
	Arrays . . . . .	331
	Multidimensional Arrays . . . . .	333
	Functions . . . . .	335
	Getting Down to Business with PHP . . . . .	339
	PHP Error Handling . . . . .	351
	Filters . . . . .	356
	Forms . . . . .	358
	Sessions . . . . .	361
	Working with Data . . . . .	363
	Summary . . . . .	376
<b>Chapter 11:</b>	<b>Web Development with ASP . . . . .</b>	<b>377</b>
	ASP Compared to Other Tools . . . . .	377
	ASP's Advantages and Disadvantages . . . . .	379
	ASP Processing . . . . .	379
	ASP Code to Create a Simple Table . . . . .	409
	Creating a More Advanced Table . . . . .	419

Updating Data in a Database . . . . .	424
Summary . . . . .	433
<b>Chapter 12: Java Server Pages . . . . .</b>	<b>435</b>
JSP Overview . . . . .	435
A Simple JSP Script . . . . .	440
JSP Syntax Summary . . . . .	440
JSP Implicit Objects . . . . .	464
JSP Standard Tag Libraries. . . . .	468
Sessions . . . . .	472
Cookies. . . . .	474
Accessing a Database . . . . .	478
Exception Handling . . . . .	507
Summary . . . . .	512
<b>Chapter 13: Differences in Common Browsers . . . . .</b>	<b>513</b>
W3C Standards and Guidelines . . . . .	513
Addressing Differences in Common Browsers . . . . .	514
Minimizing the Impact of Different Browsers . . . . .	526
Summary . . . . .	529
<b>Chapter 14: Best Practices . . . . .</b>	<b>531</b>
Focus on the Site’s Objective. . . . .	531
Structure Your Site . . . . .	532
Avoid the Cutting Edge . . . . .	533
Use CSS . . . . .	533
Deal with Coding Issues . . . . .	534
Test . . . . .	540
Summary . . . . .	543
<b>Appendix A: HTML Tags . . . . .</b>	<b>545</b>
<b>Appendix B: Special Characters . . . . .</b>	<b>549</b>
<b>Appendix C: PHP Functions, Constants, Filters, &amp; Parameters . . . . .</b>	<b>553</b>
Array Functions . . . . .	553
Array Constants . . . . .	556
Calendar Functions. . . . .	557
Date/Time Functions. . . . .	557
Date Constants . . . . .	558

Directory Functions . . . . .	559
Error and Logging Functions. . . . .	559
Error Function Parameters . . . . .	559
Error and Logging Constants. . . . .	560
File System Functions . . . . .	560
File System Constants . . . . .	563
Filter Functions. . . . .	564
Filters. . . . .	564
FTP Functions . . . . .	565
FTP Constants . . . . .	566
HTTP Functions . . . . .	567
Mail Functions . . . . .	567
Mail Parameters . . . . .	567
Math Functions. . . . .	567
Math Constants. . . . .	569
Miscellaneous Functions. . . . .	570
MySQL Functions . . . . .	570
MySQL Constants . . . . .	572
SimpleXML Functions. . . . .	573
String Functions . . . . .	573
String Constants . . . . .	577
XML Parser Functions . . . . .	577
<b><i>Appendix D: JDBC Data Types . . . . .</i></b>	<b>579</b>
<b><i>Appendix E: HTML Colors . . . . .</i></b>	<b>581</b>
